The Services are provided over a copper network Windstream leases from Verizon, which will be retired by Verizon on April 16, 2018. Windstream will transition most customers to equivalent services delivered on Verizon's fiber network. However, Windstream does not have an equivalent fiber service for these customers, which will require a different product or termination of services with Windstream. Attached hereto as Attachment 3 is Windstream's certification in accordance with rule 63.71(i)(2), 47 C.F.R. § 63.71(i)(2).

## 7. Conclusion

Windstream believes that the proposed discontinuance is reasonable and necessary. As outlined herein, Windstream will take reasonable steps, to the extent that is able, to assure that the discontinuance of this service is not unduly disruptive to the present or future public convenience and necessity. Accordingly, Windstream respectfully requests that the Commission permit it to discontinue the provision of Services to customers in certain locations of Maryland, Massachusetts, New Jersey, New York, Pennsylvania and Virginia pursuant to Section 63.71.

Respectfully Submitted,

### Important Notification Regarding Your DSL Service for Account # [REDACTED]

As a valued Windstream customer, we want to let you know that changes are occurring at the location from which your service is provisioned. Your service today is being delivered over a copper network that Windstream leases from Verizon. Verizon is decommissioning this copper network and replacing it with newer fiber technology to provide a better, improved suite of services.

With this change the current DSL Service you are receiving from Windstream will no longer be available over the new fiber plant. **As a result, Windstream customers in the Columbia, MD area will have these services retired on April 16, 2018.** The change requires action on your part and we want to work with you to make you aware of your options and assist you in any way possible to ensure a smooth transition prior to the service retirement.

**To avoid service interruption, we encourage you to take action as soon as possible by contacting your Customer Advocate or Customer Care at 800.600.5050, no later than February 28, 2018 to explore an alternative service solution.**

The FCC will normally authorize this proposed discontinuance of service (or reduction or impairment) unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but no later than 15 days after the Commission releases public notice of the proposed discontinuance. You may file your comments electronically through the FCC's Electronic Comment Filing System using the docket number established in the Commission's public notice for this proceeding, or you may address them to the Federal Communications Commission, Wireline Competition Bureau, Competition Policy Division, Washington, DC 20554, and include in your comments a reference to the § 63.71 Application of Windstream Services, LLC. Comments should include specific information about the impact of this proposed discontinuance (or reduction or impairment) upon you or your company, including any inability to acquire reasonable substitute service.

Thank you for your time and attention to this important matter to ensure enough time is allotted to select and migrate to a new solution prior to April 16, 2018.

Regards,

Windstream Customer Care
